

A woman with long brown hair, wearing a grey patterned hospital gown, is sitting on the edge of a hospital bed. She is looking off to the side with a thoughtful expression. The bed has a blue duvet and a grey blanket. To her left is a wooden bedside table with a lamp, a pink mug, and a book. The background is a plain white wall.

Distribution

With dealers and service agents in almost every town and city in Australia and New Zealand, and in most states across the USA, we are delivering solutions to homes and facilities every day. Our distribution centres in Melbourne, Auckland, and Nebraska allow us to quickly supply anywhere in Australasia and North America.

Product & Supply

We design and manufacture our products to close the dignity gap — bringing clinical performance home with comfort, independence, and peace of mind. Trusted components and local stock ensure the right support is delivered quickly when it’s needed.

01 BEDS & PARTNER BEDS

Homecare beds that feel like home.

Designed with both comfort and dignity in mind, our homecare beds offer more than just medical support — they bring a sense of familiarity and warmth to any living space. Whether for individual use or as a partner bed solution, our range combines high functionality with discreet, homelike aesthetics. Because care should feel personal — not clinical.

IC333 SPLIT QUEEN PARTNER BED

Seamless Surround

For a sleek, uninterrupted bed design.

Split Mattress Platform

Promotes independent movement and customised support for each partner.

No Mattress Gap

For continuous comfort across the bed.

Dual Hand Controls

For complete comfort and individual control for both sleepers

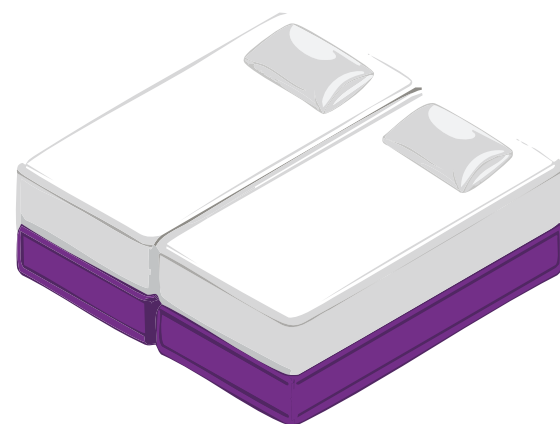

Sleep Together, Your Way.

All Icare Homecare Beds can be customised for couples to sleep side by side—seamlessly, with no gap between mattresses.

Just follow three simple steps:

- 1 **Pick the perfect model for each partner**
- 2 **Choose your preferred size for each side (Long Single or King Single)**
- 3 **Select who sleeps on which side – using our Partner Bed Assessment Form**

Note: Headboards are sold separately and are tailored to each side.

Product Highlights:

- Mix and match bed models
- Left or right side sleeping preferences
- Compatible with side rails and accessories
- Can be made with Wheelchair transfer cut away

PARTNER BED SET-UP

Individual Headboards

Each bed has its own headboard – perfect for separate use or paired setups.

Side-by-Side

Beds placed next to each other for a seamless partner setup. Side by side configurations.

No Mattress Gap

No gap between the mattresses. A flush surface for uninterrupted comfort and connection.

Recessed Centre Rail

A recessed centre rail creates a smooth, upholstered link between both beds for a clean and unified feel.

RANGE

The Right Fit for Every Room.

Bed Frame Dimensions

*Side Notes

Partner beds can be made by combining two Long Singles (called King in Australia and Super King in New Zealand), two King Singles, or one Long Single with one King Single.

All Icare beds are built with a size tolerance of $\pm 15\text{mm}$ to allow for manufacturing and fitting variations.

Base height measured from floor to mattress platform.

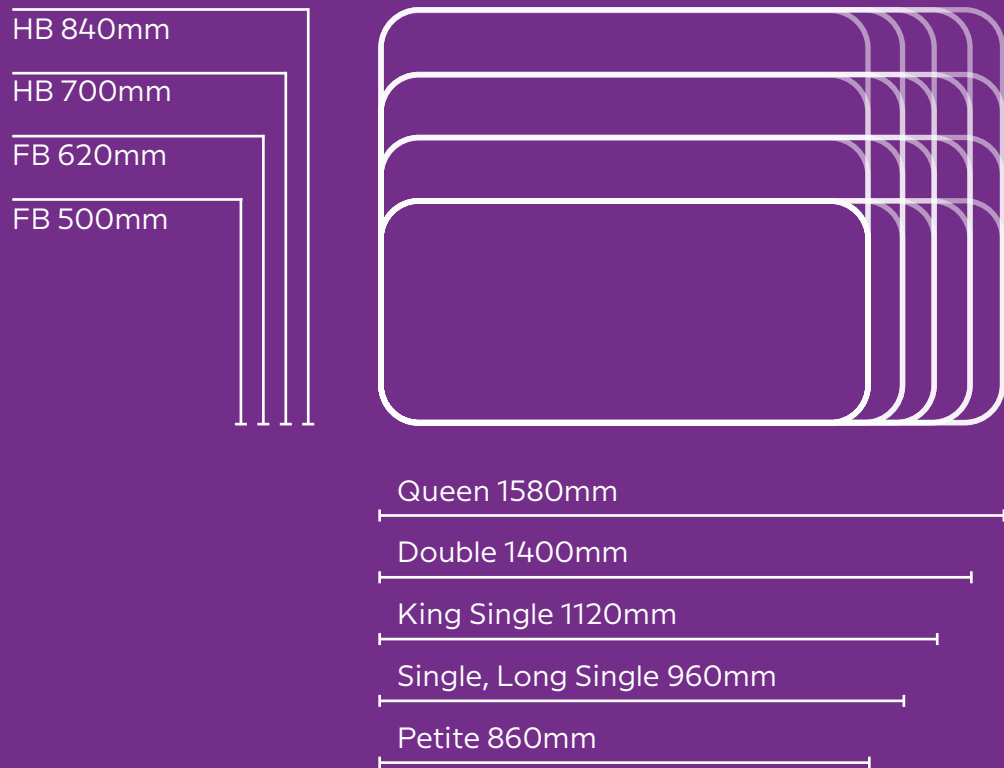

Icare beds are designed to suit a wide range of user needs and room configurations. This guide outlines compatible sizes for each model, from compact Petite and Single options through to Split King and Partner Set-ups. Whether you're selecting a basic home care bed or an advanced adjustable model, Icare offers flexibility across sizes including Long Single, King Single, and Split Queen. Use this chart to match bed models with frame sizes for a tailored care solution.

Head & Footboard Dimensions

***Side Notes**

Adding a headboard or footboard will increase the overall bed length by approximately 30–60mm each, depending on the model.

HEAD & FOOTBOARD SIZES & DIMENSIONS

A Seamless Fit for Every Bed.

Available in a variety of designs, our headboards and footboards are built to align with all Icare Homecare bed sizes. Each piece is measured for a precise fit, ensuring stability and seamless installation. Use this chart to quickly find the right headboard for your bed size and model.

BED FUNCTIONS

Head Lift Down
Fully flat position.

Head Lift Up
Raises upper body – aids sitting, breathing, transfers, and comfort.

Head Lift

Knee Break
Bends knees – eases back pressure, supports circulation, and helps prevent sliding.

Vascular Support
Adjusts leg angle to relieve heel pressure, improve circulation, and reduce swelling.

Knee Break

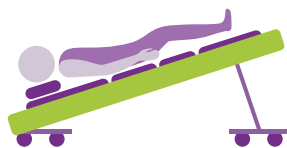

High
Raises the bed – sets the right height for safer transfers, reduces caregiver strain, and makes care tasks easier.

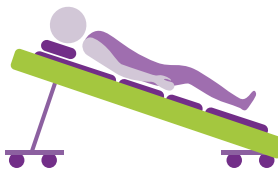

Low
Lowers the bed close to the floor – improves comfort at rest and helps prevent falls.

Height Adjustable

Trendelenburg
Head down, feet up – boosts circulation, reduces leg swelling, aids pressure care.

Reverse Trendelenburg
Head up, feet down – eases breathing, aids transfers, aids pressure care.

Trendelenburg and Reverse

Designed for Comfort, Built for Living.

Beyond function, Icare beds look great in any setting. With clean lines, stylish headboards and footboards, and a choice of finishes that bring warmth and dignity while delivering full care capability. They combine smart functionality with modern design, making them versatile for homecare, rehab, and long-term care. This chart gives an overview of all adjustable functions, showing what each does and how it supports comfort, safety, circulation, transfers, and caregiver ease.

BATTERY BACKUP

Reliable Backup Power

- **Up to 1 Week:** Backup power when it's needed most.
- **Reliable:** Activates instantly with consistent performance.
- **Cost-Effective:** Lasts for years with minimal use.

ANTI CRUSH MOTORS

Every Move Protected

- **Safe:** Limbs won't be crushed during adjustment.
- **Smooth:** Provides controlled, gentle bed movement.
- **Reliable:** Built to operate consistently for long-term use.

RETAINER BARS

Held In Place

- **Secure:** Holds the mattress firmly at corners and foot.
- **Stable:** Prevents shifting during transfers.
- **Easy to Install:** Fits quickly and simply without tools.

STANDARD SAFETY FEATURES

Safety First – Always Standard.

At Icare, safety is never optional. Every bed we design is built with uncompromising attention to quality and reliability. Our safety features aren't extras or add-ons — they come standard, giving peace of mind to both caregivers and users. From sturdy construction and precision engineering to intuitive safety controls, each detail is created to protect, support, and reassure. With Icare, you can trust that safety is at the heart of every bed, because your well-being should never be negotiable.

CURVEX™ TECHNOLOGY

Safety

- Prevents skin shear with advanced shin protection
- Soft-touch edges safeguard feet and toes
- Impact-dispersing design enhances overall user safety
- Reinforced construction for superior strength and durability

Aesthetic

- Rounded radius corners for a cleaner, softer look
- Smooth edges create a more welcoming and homelike feel
- Space-efficient design, blending style with wheelchair accessibility

With standard straight Corners

With CurveX™ Technology

WHEELCHAIR TRANSFER CUTAWAY

Cutaway Design

- **Optimal Alignment:** Brings wheelchair closer for easier transfers.
- **Accessible:** Clear space for natural approach.
- **Independent:** Less effort, more user control.

CONTROL OPTIONS

Held In Place

- **Joystick:** Ideal for users with limited fine hand motor control.
- **Lockout Controls:** Prevent unintended use of certain functions.
- **Mounting Options:** Flexible placement to suit different needs and preferences.

OPTIONAL SAFETY FEATURES

Premium Function Enhancements.

All Icare Homecare beds come with built-in safety as standard, but additional features are available for specific care needs. Options include CurveX corners, a wheelchair transfer cutaway, and different hand controls to suit individual preferences. These enhancements not only add safety but are carefully designed to maintain or elevate the bed's high-end, stylish appearance, ensuring that premium aesthetics go hand-in-hand with practical protection.

02 MATTRESSES & OVERLAYS

Made for Care, Designed for Comfort

Icare mattresses and overlays combine premium comfort with proven pressure injury prevention systems. They are designed to reduce pressure, support mobility, and aid recovery—never as an afterthought. With a high-end, home-style appearance, every Icare mattress delivers clinical performance for care homes, rehab, long-term care, and private homes, while preserving dignity and comfort.

IC15

The IC15 firm mattress provides pressure care with a comfortable feel. Its firm surface and low immersion make turning and repositioning easier.

Feel Rating:

Fit your Feel

Available in two thicknesses to suit your chosen mattress.

300mm More

Provides added legroom, keeping taller sleepers comfortable without their feet hanging off the bed.

OVERLAY & UNDERLAY

The Perfect Match for Your Mattress.

Icare overlays and underlays enhance comfort, pressure care, and safety using our trusted technologies: ActiveX™ for immersive pressure relief, ActiveFloat™ for added envelopment and reduced shear, and XP Support to provide firm support, prevent bottoming out, and cushion beside-bed impacts.

ACTIVEX™

Overlay

The ActiveX™ Pressure Care Overlay uses heat and pressure-sensitive material, which softens around high-pressure or inflamed areas for added comfort and targeted relief on an existing mattress.

Feel Rating:

Soft

*Side Notes

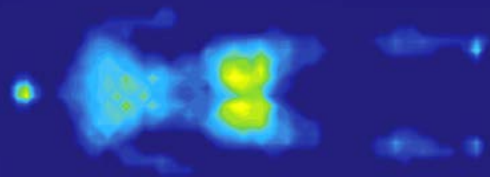

Partner beds can be made by combining two Long Singles (called Split King in Australia and Super King in New Zealand), two King Singles, or one Long Single with one King Single.

All Icare mattresses are manufactured with a size tolerance of ± 15 mm to accommodate production and fitting variations.

Comfort That Fits Every Bed.

Icare mattresses are designed to suit a wide range of user needs and room configurations. This guide outlines compatible sizes for each model, from compact Single options through to Queen and Split King setups. Whether selecting a mattress with targeted pressure relief, anti-shear protection, or enhanced comfort features, Icare offers flexibility across sizes, including Long Single, King Single, and Split Queen. Use this chart to match mattresses with bed frames for a tailored care solution.

PRESSURE CARE

ACTIVEX™

Balanced pressure relief

- **Comfortable Design:** Open-cell structure promotes airflow and temperature regulation for all-night comfort.
- **Targeted Pressure Relief:** Softens around inflamed bony prominences to help prevent pressure ulcers.
- **Balanced Immersion & Envelopment:** Optimised to support spinal alignment while aiding mobility and transfers.

ACTIVEFLOAT™

Support without lockout

- **Dedicated Anti-Shear:** Minimises shear forces, even under maximum compression.
- **Consistent Performance:** Unlike traditional foams, it stays pliant and won't lock out.
- **Adaptive Comfort:** Enhances comfort and support across different bed and mattress setups, including adjustable beds.

XP SUPPORT™

Working beneath,
protecting above

- **Stable Base Support:** Prevents bottoming out of the mattress, ensuring consistent support even on adjustable beds.
- **Edge & Side Protection:** Firmer edges reduce accidental roll-out and assist with safe transfers.
- **Responsive & Springy:** Contours easily to profiling beds and heavier users, reducing effort for turning and transfers.

KEY TECHNOLOGIES

Proprietary Sleep Technologies

At Icare, every mattress integrates advanced features that support comfort, mobility, and well-being. Protective and pressure-relieving technologies are built in, not added on, giving confidence to both users and caregivers. From pressure care surfaces and anti-shear materials to responsive support that aids transfers and movement, each element is engineered to enhance safety, independence, and restorative sleep.

KEY TECHNOLOGIES

MICRO-CLIMATE MANAGEMENT

Cool. Dry. Protected.

- **Bluetec Cover (Top/Next-to-Skin):** Regulates surface micro-climate, keeping skin cooler to help prevent pressure injuries.

- **Vant 3D Mesh (Sides):** Airflow reduces heat and moisture, helping prevent mould, mildew, and infection.
- **Enhanced Comfort & Safety:** Together, these technologies create a cooler, drier, and safer sleep environment.

CONTOUR LATCH SURFACE LOCKING

Stability You Can Trust

- **Secure:** Prevents mattress drift or slippage when users get in or out of bed, keeping them safe during transfers and movement.
- **Convenient:** Eliminates the need for retainer bars, allowing caregivers to tuck sheets easily around the mattress.
- **Reliable:** Tool-free hook-and-loop fastener is simple to use and built to perform consistently over time.

VERSAFLO3™

Advanced Pressure Relief

- **Quiet:** Whisper-quiet operation protects patient rest and improves sleep quality and outcomes.
- **Effective:** Two-cell alternation offloads 50% of the body at any time for optimal pressure relief.
- **Comfortable:** ActiveX™ and XP Support™ layers provide the most comfortable experience in its class while managing micro-climate and thermal balance to reduce heat loss.
- **Safe & Gentle:** Independent layers provide anti-shear support and simplify maintenance.
- **Responsive:** Short cycle times (5–20 minutes) deliver tailored support for acute care patients.

LATEX

Naturally Responsive Support

- **Buoyant:** Provides springy support that makes transfers and turning easier.
- **Natural:** Made from 100% natural latex, naturally antibacterial and durable.
- **Breathable:** Pin-hole ventilation promotes airflow, helping regulate temperature.
- **Adaptable:** Contours easily to any profiling or adjustable bed platform.
- **Comfortable:** Combines pressure care with a responsive, home-like feel for lasting comfort.

03 BED ACCESSORIES

Smart design, flexible care.

Icare bed accessories combine thoughtful design with practical functionality to enhance comfort, safety, and independence. From over bed tables and rails to storage and protective solutions, each piece integrates seamlessly with Icare beds. Durable materials, easy attachment systems, and adaptable configurations make everyday care simple, flexible, and stylish.

Start with a sturdy bed rail for in-bed mobility and access.

RAIL

Add soft padded covers to protect against hard impacts and prevent limbs slipping between rails.

PADDED COVER

Layer slip-on fabric covers over the padded rails for a stylish, coordinated finish.

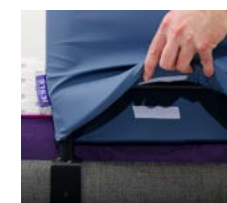

SLIP COVER

RAILS & COVERS

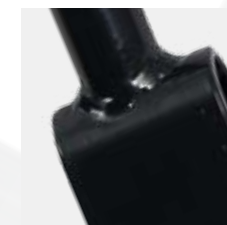

Icare rails offer secure safety and support, with optional wipeable padded covers for comfort. Slip-on fabric covers layer over the padding, perfectly colour-matched to your bed for a coordinated, stylish finish.

Mount anywhere along the bed.

Removable padded covers available.

Durable steel with stylish charcoal finish.

BED STICK

Our simple grab rail for transfers and repositioning. Slip-on design with safety return hook, adjustable anywhere along the bed.

04 BEDDING & PROTECTION

Comfort, hygiene, safety in every layer.

Icare bedding and protection solutions combine comfort, hygiene, and safety. From mattress protectors and sheets to blankets and cradles, every product is designed to work seamlessly with Icare beds. Durable, easy-care materials and smart designs help maintain skin health, reduce pressure, and simplify daily care.

Mattress PROTECTOR

The Icare Waterproof Mattress Protector features a breathable Tencel surface with an ultra-thin, whisper-quiet 0.02 mm PU backing that allows moisture vapour to dissipate. Fitted sheet style protects the mattress top from spills and stains.

Product Highlights:

- 35cm Drop
- 100% Waterproof top
- Fitted Sheet Style
- Washable
- Home and Facilities use

Silent Shield

Waterproofing engineered at 0.02 mm delivers lightweight, breathable, whisper-quiet protection.

Model Code: ICMP

Pillow PROTECTOR

The Icare Waterproof Pillow Protector features soft Tencel with an ultra-thin, whisper-quiet 0.02 mm PU backing that allows moisture vapour to dissipate. Zip-on design protects the entire pillow while maintaining its natural shape and comfort.

Product Highlights:

- Pack of 2
- 100% Waterproof top
- Prevents bed bugs and dust mites
- Washable
- Home and Facilities use

Silent Guard

0.02 mm PU with soft Tencel fully encases the pillow for breathable, silent protection.

Model Code: ICPP

Mattress COVER

The Icare Waterproof Mattress Cover features soft Tencel with an ultra-thin, whisper-quiet 0.02 mm PU layer that allows moisture vapour to escape. Fully enclosed design protects the entire mattress from spills and stains.

Product Highlights:

- 25cm Drop
- 100% Waterproof
- Zip on
- Washable
- Home and Facilities use
- Prevents bed bugs and dust mites

All-Round Guard

0.02 mm PU with soft Tencel fully encases the mattress for breathable, silent protection.

Model Code: ICMC

Absorbent BED PAD

The Icare reusable incontinence bed pad offers four-layer protection against stains and mattress damage. Waterproof bottom layer prevents leaks, ultra-dense middle layers absorb moisture, and a quick-wicking top layer keeps sleepers dry and comfortable. Tuck-in flaps keep the pad securely in place.

Product Highlights:

- Moisture Wicking Top Layer
- Absorbent Middle Layer
- Protective Membrane
- Waterproof Polyester Lining

Model Code: IC90BP

Absorbency Rating:

2L/m2 over 8 hours

ZEROTEC™

Cushion Cover

The medical-grade cushion cover is made from Zerotec, a 4-way stretch barrier fabric that reduces shear on pressure redistribution surfaces. Waterproof, wipeable, and vapour permeable for breathability, it features air release vents, welded seams, and waterfall flaps for effective fluid control.

Product Highlights:

- 4-way stretch
- 100% Waterproof
- Air release vents
- Washable
- Waterfall zip covers

LIFT CHAIR FUNCTIONS

Back rest

The recline function assists people with limited mobility to shift positions without physical strain.

Leg rest

The leg rest elevates and supports legs, relieving pressure, reducing swelling, and improving circulation safely.

Back rest & Leg rest

Sit to Stand

Sit to Stand: The sit-to-stand function helps users rise safely, reducing strain, supporting mobility, and encouraging independence.

Head rest

The adjustable headrest supports the neck and head, relieving strain while enhancing comfort and posture.

Sit to Stand Adjust & Head rest

Lumbar VMotion

The electric lumbar adjust supports the lower back, relieving tension, improving posture, and enhancing comfort.

Lumbar VFit

The re-packable lumbar section allows personalized lower back support, relieving pressure and improving comfort and posture.

Lumbar Support

Lie Flat

The lie-flat function allows full-body recline, relieving pressure, supporting circulation, and enhancing comfort effortlessly.

Zero G

ZeroG (tilt-in-space) redistributes weight, relieves pressure, and supports circulation comfortably.

Lie flat & ZeroG

Designed for daily ease

Our chairs are designed to support the body with comfort and ease. With features like reclining, leg elevation, lumbar adjustment, sit-to-stand, or ZeroG tilt, each chair helps relieve pressure, support mobility, and enhance daily comfort. Thoughtful, adjustable design and homelike finishes help users maintain independence and confidence — while fitting naturally into everyday life.

07 CUSHIONS

Rest, Recover, Relieve

The Icare Cushion Range provides targeted support, promotes posture, and relieves pressure for everyday life, rest, and recovery. Lightweight, durable, and easy to care for, our cushions help users stay comfortable, aligned, and supported wherever they are.

REFORM

Ergonomically designed with high-density materials and unique moulded shapes, Reform Cushions provide lasting comfort, support, and pressure relief.

Ergonomic Comfort for Every Body.

Reform Cushions are designed to deliver superior comfort, pressure relief, and postural support. Featuring ergonomic shapes, high-density materials, and unique moulded designs, they reduce pressure points, improve alignment, and enhance overall well-being. Suitable for a wide range of seating and lying positions, each cushion provides stability and lasting support.

**High density ActiveX
with charcoal fusion.**

**Advanced multi-region
support.**

**Zip-off washable
breathable cover.**

Seat Support

Reform seat cushions use high-density, charcoal-infused ActiveX™ for comfort, pressure relief, and anti-vibration. The moulded design provides ischial support, coccyx relief, and a pommel for leg positioning and anti-slippage, with an anti-slip base for stability.

Model Code: ICR1

P
PC
PM

Full Back Support

Reform Full Back Support relieves pressure and promotes posture with its contoured shape. Extended upper arms support the scapula, while a dual curve aids the lower back. A central gap improves airflow, and an elastic strap secures it to any chair.

Model Code: ICR2

P
PC
PM

Low Back Support

Reform Low Back Support relieves pressure and improves posture with its contoured shape. A knuckle-bone dual curve and wide base provide targeted lumbar support, while an elastic strap secures it to any chair.

Model Code: ICR3

P
PC
PM

Knee Support

Reform Knee Support elevates the knees or heels to improve circulation, reduce swelling, and relieve pressure. Its moulded design maximises comfort, easing lower back pain when placed under the knees or offloading heel pressure when used under the ankles.

Model Code: ICR4

P
PC
PM

Lumbar Support

Reform Lumbar Support provides targeted lower back support in supine or Fowler's positions, relieving pain and aiding lateral positioning. Its contoured design cradles the lumbar area for comfort and stability, with raised sides to prevent rolling.

Model Code: ICR5

P
PC
PM

Neck Support

Reform Neck Support features a contoured, anti-vibration design with lateral support to stabilise the neck, providing comfort for seated users such as drivers or office workers.

Model Code: ICR6

09 HYDROSENSE SYSTEM

Because temperature matters

Supporting the body's natural balance, Hydrosense creates a controlled micro-climate for those unable to regulate their own temperature. This advanced water-based system helps reduce pressure risks, support wound care, and enhance comfort.

Temperature Management

Temperature management plays a vital role in patient comfort, clinical outcomes, and skin integrity. Whether in acute care, aged care, or rehabilitation, maintaining a stable body temperature is essential to supporting circulation, preventing pressure injuries, and reducing discomfort caused by overheating or cooling.

Our temperature management solutions are designed to seamlessly integrate into care environments, offering responsive, safe, and effective support where it's needed most.

HydroSense System Unit

HydroSense actively heats or cools water and circulates it through the chosen accessory to manage the body's micro-climate. Features include a quiet pump, adjustable temperature (8-48°C), and a sleep timer.

Model Code: PPUR

PM
T

Single Mattress Pad

The HydroSense Bed Pad sits between the user and mattress, circulating water through medical-grade silicone tubing to regulate the body's micro-climate. Optimal temperature for the Bed Pad is: 20°C–35°C.

A simple key to product function and purpose.

Every product in the Icare range is designed with a specific therapeutic purpose in mind. To make it easy to understand what each item does, we've created a simple set of initials that represent its key functions.

These symbols appear beside each product throughout the catalogue, helping you quickly identify how a product supports posture, pressure care, comfort, mobility, and overall wellbeing.

Whether you're an occupational therapist, dealer, or end user, this key provides a clear snapshot of each product's intended clinical and functional benefits — allowing you to match the right solution to every individual's needs.

MI	Mobility & Independence
P	Positioning
PC	Pressure Care
PM	Pain Management
T	Thermoregulation
CA	Caregiver Access

Our goal is simple: Improve your daily life even just 1% at a time by helping you feel less pain and more ease.

MI

Mobility & Independence

Helping users stay active and independent is key for movement, transfers, and repositioning.

How to find
Look for the MI colour code to identify Mobility & Independence products.

P

Positioning

Supporting correct posture and alignment improves comfort, function, and overall wellbeing.

How to find
Look for the P colour code to identify Positioning products.

PC

Pressure Care

Reducing pressure on vulnerable areas helps prevent or manage pressure injuries and enhances comfort.

How to find
Look for the PC colour code to identify Pressure Care products.

PM

Pain Management

Properly managing pain and discomfort supports physical ease and helps maintain daily function.

How to find
Look for the PM colour code to identify Pain Management products.

T

Thermoregulation

Maintaining a comfortable body temperature and managing moisture promotes better rest and skin health.

How to find
Look for the T colour code to identify Thermoregulation products.

CA

Caregiver Access

Making care tasks easier and safer allows caregivers to provide close, efficient, and ergonomic support.

How to find
Look for the CA colour code to identify Caregiver Access products.

*If you'd like additional support, our team of experts is always available to help you choose the most suitable products.

Professional Support Made Easy

Icare Medical Group provides a range of resources to support dealers and allied health professionals, including OTs, physiotherapists, and other assistive technology specifiers. From product samples, brochures, and videos to demonstration kits and training workshops, we make it easy to explore and understand our products. We also offer one-on-one or online training, spare parts, prompt service, and funding guidance to support patient care.

Dealer Information

Icare Medical Group has a range of dealer resources available from images and point of sale. We can provide; Mattress sample cubes, brochures, in store banners and posters, videos and images, user manuals and warranty cards, wall graphics, display mats and covers, product and fabric samples, stands and shelving.

To reorder marketing material please ask for an order form.

Training Programs

Educational Workshops

We now hold regular educational workshops for therapists and service providers in locations around Australia, New Zealand and North America. We can provide training with our product specialists on everything from patient transfers to the psychology of care in the home.

Product Training

Icare can provide one on one training at your showroom or facility either in person, or remotely online. We can supply training videos and manuals, on request.

Therapy Kits

We have demonstration kits and folios available to assist Occupational Therapist prescribe equipment. Easy information packs to take into homes when assessing clients.

Spare Parts

We carry spare parts for all our products should you need replacements. If you are a service technician, and unsure what parts you may need, please contact us for a full parts list.

Service

In the unlikely event of a product fault or malfunction, we pride ourselves on prompt service. If you have a product fault, or questions – please contact your dealer straight away. The dealer is responsible for servicing the beds and repairs under warranty. Patient care and comfort is very important, and that is why we do our part with quick dispatch and repairs when needed.

Funding Solutions

Icare products are available through a variety of national government funding programs. For more information on what funding options are available in your region, please contact us for your nearest dealer. Or contact your local store to discuss your requirements.
